

### **Wildlife Oversight & Land-Use Front (WOLF) Coalition Membership Form**

Join the Wildlife Oversight & Land-Use Front (WOLF) coalition to entirely de-list the grey wolf as a federally protected endangered species and return management to the states — where it belongs.

From cattlemen to sportsmen, outfitters to public officials, hunter groups to rancher associations, we need anyone and everyone who supports common-sense management of wolves to sign on. If you love the land, the hunt, and the heritage that binds us, this is your fight too.

Together, we can protect our ranching communities, our wildlife, and the future of the great American outdoors.
